OBJECTIVE

Motivated and dedicated Physics educator with two years of experience teaching IGCSE and A Level Physics, currently serving as a tutor at Impact Homeschool and Tuition Centre in Nairobi. Holding a Bachelor of Education, I am committed to fostering a deep understanding of physics concepts through engaging and personalized instruction. Eager to contribute to Wolsey Hall Oxford's mission of providing high-quality homeschooling education by leveraging my expertise in asynchronous teaching methods and my passion for student success.

EXPERIENCE

✔ Cheptalal Girls Secondary School May 2024 - August 2024
Teacher

In the role of Teacher at Cheptalal Girls Secondary School, responsibilities included designing and delivering engaging lessons that align with the curriculum. The focus was on fostering a positive learning environment through effective classroom management techniques. Additionally, personalized instruction was provided to meet the varied learning needs of students, ensuring that every individual received the support required for success. Collaboration with fellow educators played a key role in refining curriculum delivery and instructional methods.

- Developed and executed lesson plans that engaged students and promoted active learning.
- Utilized a variety of teaching methods to cater to diverse learner needs.
- Participated in curriculum development initiatives alongside colleagues.
- Maintained a supportive and inclusive classroom environment to encourage student participation.

✔ Impact Homeschool and Tuition September 2024 - Present
Tutor

As a Tutor at Impact Homeschool and Tuition Centre, the primary focus was on providing tailored educational support to students in a one-on-one setting. This involved assessing individual learning styles and adapting teaching strategies to enhance comprehension and retention of material. Effective communication skills were essential in explaining complex concepts in a clear and relatable manner, fostering a supportive learning atmosphere. Collaboration with parents was also crucial to track progress and set educational goals.

- Delivering IGCSE and A Level Physics curriculum to a diverse student population.
- Providing personalized instruction and support to students in both online and in-person settings.
- Developing and assessing assignments, offering detailed feedback to support student progress.
- Collaborating with colleagues to design curriculum materials aligned with international education standards.

EDUCATION

✔ UNIVERSITY OF NAIROBI 2021 to Present
